

#### Sock it to Me

Whiskers is famous for its premium, colorful golf-specific shoelaces worn by scores of PGA, LPGA Tour, and countless amateur players to add subtle pop to their shoes. As an encore, the company recently introduced 12 golf sock styles: solids are white, black, red, and navy, while patterns attractively showcase either thin stripes or wide panels neatly alternating colors. Whiskers golf socks promote the perfect amount of compression for snug fits and no slips; vetted mesh to allow hot air to escape for optimal breathability; and luxe, durable fabrics for ultimate comfort without bumpy and rubbing annoyances.

#### Looking Good on the Course

Since early 2021, LOHLA SPORT's premium ladies' golf-lifestyle apparel has created a "Golfleisure" phenomenon akin to Lululemon's "Athleisure" craze. Comfortable, chic, and playful describe the upscale brand's tops, bottoms, skorts, outerwear, and accessories which seamlessly transition from the course to the office and social settings. Available in XXS to XXL, cuts are flattering yet not overly sexy, made of fine-quality fabrics sourced worldwide, and optimize athletic movements. Among the most popular styles are The Very Pant and The Golf Fitness Pull-On Pant. As the brand's global ambassador, Annika Sorenstam exclusively wears LOHLA SPORT.

### 2Thumb Grip

2Thumb Grip, The Original Flat Top Grip since 2004, strives to make putting easier for golfers of all levels. They produce a range of ergonomically designed putter grips that aid grip alignment, help prevent grip twist, and ensure an easily repeatable stroke. 2Thumb is an incredibly versatile grip that will accommodate all of today's gripping styles, from conventional, claw, left hand low, prayer etc. At 2Thumb, they believe that putting is the single most important skill in golf and it's their passion. The connection point or contact area between the player and the putter is where their innovative and patented designs make a real difference to players of all levels.

### Fits Like a Glove, Even When Wet

The Clinch Tactile Glove from Clinch Golf is an all-weather, modern performance golf glove designed to perform year-round. Golfers whose grip is affected by moisture, whether from rain or sweat will appreciate the glove's superior fit and grip in all weather conditions.

The glove's modern design and innovative CrushGroove fabric enable the glove to grip when wet, breathe, and last up to twice as long as regular golf gloves. Additionally, the gloves are machine washable and phone-friendly. The glove comes in three colors.

### Know Your Distance, from Anywhere on the Course

The latest GPS watch from Bushnell, ION ELITE, offers slope-compensated distances...hallelujah! Don't ask how...just say thank you. This latest offering includes a color touchscreen display, stat tracking, score keeping, and hazard/layout yardages. So very helpful on blind shots or virgin trips to new tracks. Dynamic green mapping from your line of play. Touch screen allows you to move the flag position on the green as needed. The slim and lightweight design will make you forget you have this round-enhancing device on your wrist. The battery life is superior to others that we've tested which really offers peace of mind.

\$199.99

### Revolve Golf Bags

The all-purpose design of the Revolve Golf Bag allows you to use it in one of three different ways on the course: 1) with wheels attached as a push or pull cart; 2) as a standard carry/stand bag; 3) as a standard cart bag strapped on to the back of a motorized golf cart. Now you can ditch that heavy, awkward, and unreasonably large pushcart and just carry this one bag to the course. The wheels are easy to attach or detach and pop on or off with the simple press of a button. With the Revolve All-In-One Golf Bag you'll be able to go from walking to riding in just a matter of seconds. The durable telescoping handle pulls out when you're wheeling it around or conveniently stores away in a zippered pocket when you're carrying it as a stand bag or have it strapped on the back of a golf cart. The Revolve All-In-One Tour Edition Golf Bag is available in three different colors: Black/Grey, Blue/Grey and Yellow/Grey.

### Arm Lock Putting Made Easy

Putter manufacturer Evnroll has unveiled "Midlock" for 2021 – a new full putter concept offering a streamlined and simplified version of the Armlock method. As it eliminates the problem of overactive hands and wrists, Armlock has been made popular by a number of top players in recent years and has proven to be highly effective. However, due to issues around the cost of construction and the requirement for custom-fitting to suit individual golfers, Armlock putters have not become a standard offering from most major manufacturers.

Evnroll has taken on the challenge and created the Midlock – Armlock made easy – for regular golfers. The secret is in the patented grip design combined with a long slant neck hosel. The new Midlock Grip features the deepest pistol dimension allowed by the USGA. By positioning the grip sideways, the deep pistol pushes the shaft angle away from the mid-forearm reducing the typical 9 degrees of loft in an Armlock putter to just 4 degrees; similar to a simple forward press. This comfortable setup allows for an effortless one-piece putting stroke with no moving parts.

Evnroll's Midlock putters have been designed to bring Armlock to every golfer in an uncomplicated, user-friendly way. The putters are just 6" longer than the length required for a conventional setup. The 6" extra pistol section is the part that extends above the hands. So if you use a 34" putter then you would use a 40" Midlock putter.

### Sunday Golf Bags

Let's face it: with shorter courses and par-3 tracks popping up all over the country you don't need your normal overweight golf bag. The folks at Sunday Golf have come with a bevy of lightweight functional options with their Sunday Golf Bags. I'm sure many of you remember the old Sunday bags from back in the day that you had to place on the turf, or rest up against a bench. Well, these sturdy numbers are stand bags that are way more stylish, complete with dual straps and an insulated pouch to keep your drinks cold. Naturally you can use these smart bags on the real course as well, with options that carry anywhere from 7 to 12 clubs. Plus, they also come in a multitude of different colors and designs. So lighten your load and enjoy your walk with one of Sunday Golf Bags three different models - the Loma, Loma XL and the El Camino. [sundaygolf.com](http://sundaygolf.com)

### Nexbelt

With over 40 players now wearing Nexbelt on the professional golf tours, it's considered "The Fastest Growing Belt in Golf." Its team of staff professionals for 2022 includes tour players Jim Furyk, Kevin Na, Marc Leishman, and many more. Nexbelt, The Original Belt with No Holes, is known for its innovative ratchet-style technology and providing golfers with the maximum comfort and minimal adjusting. The unique ratcheting system called PreciseFit allows the wearer to adjust the belt in 1/4 inch increments, providing the golfer with the best fit, feel, and fashion available. Belts fit up to a 45" waist and are cut-to-fit by the wearer so you don't even have to know a person's waist size when ordering one as a gift for the holidays!

### GOLFFOREVER Swing Trainer

Scottie Scheffler, 2021-22 PGA Tour Player of the Year, started working with the first-of-its-kind product just weeks before winning four PGA Tour events, including the Masters, which catapulted him to the top of the world rankings. The GOLFFOREVER Swing Trainer embodies three golf training tools in one, and is a key piece of equipment used in the 4.9 star App Store-rated GOLFFOREVER app, which delivers users personalized video workouts and recovery plans from PGA Tour doctors and trainers. It's an asymmetrical resistance training bar that builds strength and mobility for your swing at home. It's a premium exercise band with handles and two resistance options for versatile training and stretching. It's

also a heavy warmup club optimized to a D3 Swing Weight that promotes thoracic mobility to loosen up at the course properly. Like every piece of equipment used in the app, the Swing Trainer comes to life with hundreds of step-by-step pre-round warmups, stretching routines, strength workouts, and pain-relief protocols.
