## Alphard Golf

More than ever, golfers are eschewing riding carts and electing to walk 4-1/2 miles, burn up to 2,000 calories and intake Vitamin D over 18 holes. Furthermore, golfers abhor wasting energy pushing a cart when it should be saved for walking stamina and shot mechanics. Enter Alphard Golf that sells tens of thousands of custom brackets, including its mega-popular Club Booster V2, that, in minutes, converts manual push carts into technologically advanced, motorized, remote-controlled golf caddies. Follow your cart or walk side by side with your cart over flat, rolling and even hilly terrain. Talk about less expensive, practical, and durable. [www.alphardgolf.com](http://www.alphardgolf.com)

The brand celebrates time well spent, with multi-hyphenate gents especially loving Extracurricular's classic pieces that take them from the greens to cocktails and everything in between. Fabrics are luxe and substantive. Cuts are comfortable and align with athletic and everyday movements. A tight range of polos, tees, second layers, bottoms, and hats are in fun yet classic colors, with designs sporting a twang of edge.
